

Dr Christoph Schneggenburger

Partner

Dr Christoph Schneggenburger is Partner of d-fine GmbH, one of the leading financial services consulting firms in Europe with offices in Frankfurt, Munich and London. Heading the d-fine Munich office, Dr Schneggenburger is in charge of business development, client management, and professional services in the Munich region.

Dr Schneggenburger has extensive experience in management of large system integration projects for trading and risk controlling of banks and asset managers. He has served clients in Germany, UK, and Ireland. In integration projects for front-to-back trading solutions, Dr Schneggenburger covers the complete value chain for trading business in any asset class. System selection and integration are always backed by functional analysis, workflow design and business specifications tailored to the particular capabilities of the software. In the area of risk controlling for banks, Dr Schneggenburger has performed many projects focussing on the implementation of regulatory and legal requirements, such as Basel II, and the German *MaRisk*, *Solvabilitätsverordnung*, and *Pfandbriefgesetz*.

Dr Schneggenburger holds a PhD from GKSS-Forschungszentrum Geesthacht and University of Hamburg. He studied Physics in Berlin. Dr Schneggenburger started his professional career as consultant in the “Financial and Commodity Risk Consulting (FCRC)” practise of Arthur Andersen in Frankfurt am Main, Germany.
