

## Dr Gernot Blum

Partner

Dr Gernot Blum is Partner of d-fine GmbH, one of the leading German financial services consulting firms focusing on quantitative and system integration projects. At d-fine he is responsible for the area of accounting, regulatory compliance and corporate finance.

Dr Blum manages projects in international accounting, compliance of regulatory requirements, controlling and management reporting, structuring and servicing of securitizations as well as topics concerning modeling and valuation in the field of acquisition.

Dr Blum's consulting experience ranges from strategic conceptual analysis (e.g. financial bank performance control), to direct technical implementation (e.g. ABS servicing or hedge accounting solutions). This breadth of experience has led to the ability of developing concepts which do not lose sight of the practicality of implementation.

Dr Blum gained his PhD at the University of Leipzig and the Max-Planck-Institut for Polymerforschung in Mainz. His professional career began at the accounting company Arthur Andersen where, after a short intermission by working as Deputy Head of Accounting for DekaBank, he became a Manager at d-fine.
