### **d-fine consultancy names three new partners**

## **Text**

The partnership of d-fine has named three new partners. With start of the new fiscal year on the 1<sup>st</sup> July 2007, Dr Mark Beinker (39), Dr Gernot Blum (40) and Dr Christoph Schneggenburger (41) have joined the partnership after many years of successful work as managers. With the expansion of the partnership, d-fine makes the necessary step to account for the strong growth of the company. The renewed revenue increase of around more than 20% in relation to the preceding year and the regional expansion of its business are the main successes of the last year. With over 200 staff members, d-fine is one of the leading European consultancies in the risk management field and amongst the top 25 largest management consultancies in its homeland market of Germany.
